# HITACHI'S VAN FLEET

**Hitachi Power Tools has announced the launch of a powerful new demonstration fleet and it's ready to hit the road near you!**

With their strikingly designed graphics and familiar green livery, the dynamic Ford Transit Custom vehicles will be used for transporting Hitachi's tougher, faster and more advanced power tools to trade demonstration days, site visits and events.

"The new fleet has enough grunt and handling ability to safely transport our precious cargo of powerful tools, from our corded range through to the very latest Hitachi 18V, 5.0Ah battery, cordless power tools," explains Simon Miller, brand manager. "Our new vans will become a familiar sight to the trade over the coming year."

**For more details on Hitachi Power Tools visit [www.hitachi-powertools.co.uk](http://www.hitachi-powertools.co.uk)**

## THE MASONRY HOUSE PACKAGE

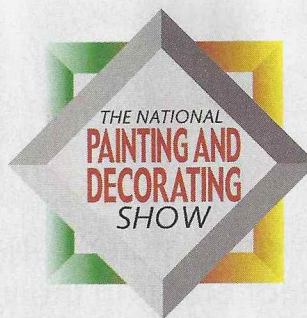

**H+H, manufacturer of Celcon Blocks, has launched a new technical support package to help smaller building contractors and those involved with self-build projects.**

The Masonry House Package is designed to take the hassle and worry out of building the fundamental elements of a build project – the walls and foundations.

The Masonry House Package includes technical advice, detailed product specification and the supply of vital masonry related products required for the build.

Explaining how the package works Jenny Smith-Andrews, Marketing Manager, at H+H said: "Customers can send in their drawings for our technical team to assess. Working from the drawings our team will calculate the materials required to build the walls and foundations using Celcon Blocks and the Thin-Joint System."

**Celebrating its 20th year, the National Painting and Decorating Show will take place at the conveniently located Ricoh Arena in Coventry on the 18th & 19th November – 9:30am to 4.00pm.**

Almost 100 exhibitors representing every known aspect of the decorating trade will be displaying a vast array of products and offering great show-only deals. It's an opportunity for the major paint manufacturers to launch new coatings on to the market, suppliers to pack their stands with a massive selection of tools, ancillaries and workday essentials – and a sprinkling of never-before-seen items from entrepreneurs. If you're into spraying or would like to be – this is the place to see the latest machines in action and to try them out for yourself. In fact one of the best things about the show, claim the organisers, is that it's not just a market place: there are live demonstrations of finishing techniques and applications going on continuously, and there is always a fun element too – from competitions, raffles and prize draws through to sporting challenges and personal appearances from celebs. Check out some of the show highlights on the website [www.paintshow.co.uk](http://www.paintshow.co.uk). You can pre register for free tickets there too and get you a complementary goodie bag when you arrive while stocks last, alternatively call 020 8645 2433 or email: [info@paintshow.co.uk](mailto:info@paintshow.co.uk)

## BIG WIPES TAKES TO THE ROAD

**Big Wipes is on a mission to clean up the nation, and to get even closer to the action the company has sent a team of grime-busting vans out on the road to help busy tradesmen scrub up nicely!**

Bright enough to make even the most dedicated white van man turn yellow with envy, the colourful Big Wipes vans will be heading to trade shows, builders' and plumbers' merchants, decorating outlets and building sites all over the country, with a mission to get tradespeople and their tools cleaned up quickly and efficiently.
