

Close encounters

Fireguard from JCC Lighting is a fire rated range of recessed downlights and the construction does away with firehoods, which means fitting is fast and easy. The products have six large ventilation openings at the rear of the lamp ensuring good lamp performance.

The company guarantees that the downlights meet Document B standards on 30, 60 and 90 minute ceiling types as they are tested to BS476: Part 21. The range includes IP20 and IP65, as well as the tiltable and eyeball halogen downlights, all are available with a 240V and a low voltage option.

Slimline tonic

A slimline programmable room thermostat has been launched by Honeywell. The CM900 can be used with radiator and underfloor heating, with gas or oil fired boilers including condensing and combination models as well as electric heating or cooling systems.

The thermostat is quick and easy to install and the backlit LCD display makes programming the thermostat easy to understand, aided by the plain English information displayed.

Duct out of the way

An insulated ducting product has been introduced by **National Ventilation**. Under the company's Monsoon brand, the product is designed specifically for the HVAC market.

Construction features an inner duct wrapped in 25mm fibreglass insulation. An outer jacket, comprising wound multi-layer aluminium polyester laminated fabric reinforced with fibreglass yarn. The ducting is easy to connect to round or oval ducting and no special tools are required.

Flexible friend

Hepworth has added six flexible tap connectors to the Hep₂O plumbing range. The connectors have a rubber inner and durable steel outer with a standard tap connector on one end and the system socket on the other.

The product is available in 300 and 500mm lengths. A 15mm diameter version is available for 1/2 inch and 3/4 inch connections, there is also a 22mm diameter option, and for 3/4 inch connections. The tap connectors are designed to fit both hot and cold water appliances and carry full WRAS approval.

The heat is on

The **Dimplex DuoHeat** radiator provides a solution to reducing carbon emissions and achieving high SAP scores. DuoHeat combines levels of performance, controllability and a balance of Off-peak and direct acting heating, which has been recognised by SAP2005 for providing levels of energy efficiency.

Low capital, installation and maintenance costs of electric heating are coupled with the reassurance that installers and specifiers will not be penalised when considering Part L compliance.

Clean up your act

Two ranges of anti-bacterial heavy duty cleaning wipes have been added by **Sycamore UK**. The Big Industrial Wipes and the dual-sided Industrial+ Big Wipes are dermatologically tested and comply with the European Cosmetic Standard. When on-site facilities may be limited the wipes can be used quickly and effectively to clean hands before a lunch or tea break.

The throw away wipes contain a blend of safely diluted cleaning solvents and emulsifiers. Pleasantly perfumed, they retain their moistness and effectiveness once opened due to a resealable airtight cap.
