

Power in your pocket

www.bigwipes.com

You can now take the power of Big Wipes wherever you go, with the 4x4 formula now available in new compact sachet packs of 40 wipes. The pack dimensions have been designed to fit perfectly into the tool pouches of most leading brands of workwear, van gloveboxes and toolbags. This makes them ideal for jobs in confined areas such as loft spaces or under sinks. The Big Wipes in the new sachet packs are as big as their brothers in the popular yellow tubs (20cm x 30cm) and stay just as hydrated as they would in a tub, thanks to the unique, self-adhesive quick seal, which stays sticky from first wipe to last. The Big Wipes 4x4 sachet packs come in both *Heavy-Duty* and *Multi-Purpose* varieties.

Advanced masonry paint

www.johnstonestrade.com/stormshield

Johnstone's Trade has added a new advanced *Silicone Masonry* paint to its *Stormshield* range, which has been developed to provide its most durable and robust exterior protection yet. *Silicone Masonry* binds with the mineral substrate to make it highly flexible. This means that it offers the ultimate resistance to harsh weather conditions and driving rain, making it perfect for bare masonry, renders, precast-concrete, concrete blockwork, brickwork and external wall insulation systems in all environments. The product offers excellent coating breathability, ensuring any moisture can evaporate from damp surfaces and removing the chance of paint peeling, as would be the case with standard masonry coatings. The new coating has been designed to be easily applied over exterior surfaces and will help to maintain the breathability of any porous substrate already coated in a silicone based paint. Its outstanding performance is further boosted by a lifespan of up to 15 years.

DDC launches new premium accessories

www.duluxdecoratorcentre.co.uk

Dulux Decorator Centre have announced the launch of its newly rebranded range of accessories. With the introduction of new products and also improved specifications, notably within the brushes range, the complete set of accessories is now available online and in-store at each of their 188 stores across the UK. Including key products such as brushes, rollers, containers and poles, the new accessories range has updated, new-look packaging and is competitively priced, making it a value option for painters and decorators. Other products include whites and linings, dust sheets, sealants and work wear, as well as essentials such as abrasives, masking and tools. Professional painters and decorators looking for premium quality can now choose from an extensive selection of products in the *Advanced* own brand collection.

Drywall driving

www.bosch-professional.com

The GSR 10.8 V-EC TE Professional cordless drywall screwdriver has been specially developed for flexible applications when fitting plasterboard. Weighing just 900 grams with the 2.5 Ah battery, it combines long runtime with an incredibly lightweight and compact design. Measuring just 207mm long it enables professional tradespeople to work in hard-to-reach areas or overhead effortlessly. Driving more than 1,200 screws into plasterboard with only one charge, the tool can easily manage screw diameters up to 4 mm for fitting 12.5 mm plasterboards on wood and metal studs. Other features include an integrated LED, softgrip handle, charge level indicator and adjustable depth stop. The GSR 10.8 V-EC TE Professional is fully compatible with all 10.8 volt Bosch cordless batteries, tools and chargers.
